

Season 2 Episode 7

Ivan^2

Ivan, Safron, and Dirk are at a skatepark in the main Ultraverse park. Safron skates through halfpipes and she spins her skateboard in the air and lands back in the halfpipe. Safron said, "Skating is the coolest and most fun thing ever. You should give it a shot." Ivan said, "I was never interested in skateboarding. It looks more like something that could get you killed." Safron said, "On the contrary, a skateboard is a lifesaver. Everyone should carry one around. I used it to skate past dangers, remember." Ivan said, "I guess so." Safron skates far down the skatepark and she shreds down a metal pipe and she grinds on the side of the skatepark.

A cloaked and shadowy figure runs through the Ultraverse city. He is armed with a dual-bladed curved sword. The Ultraverse SWAT team chases after the figure using heavily armored trucks that are completely decked with different types of weapons. They open fire on the cloaked figure. The cloaked figure jumps and grabs onto the side of a building and swings around it. The cloaked figure runs fast and he gets stopped by a giant silver robot battle mech. The mech punches downwards and the cloaked figure dodges the punch. The cloaked figure runs up the arm of the mech and he jumps to the cockpit and he cuts the mech down the middle with his dual-bladed sword. The SWAT truck rams at the cloaked figure from behind. The cloaked figure jumps and he swings his sword into the halves of the mech and he smashes the halves and they go flying into the SWAT truck and it is destroyed. Helicopters armed with machine guns open fire on the cloaked figure. The cloaked figure runs with the stream of bullets missing him by a thin margin. The cloaked figure runs down an alleyway and a bullet hits the cloak covering his head and it is ripped off revealing he is Ivan.

Safron skates to the edge of the skatepark and she sends herself flying off a ramp and she lands back on the flat ground. She keeps skating and she is stopped by the cloaked Ivan. Safron said, "Ivan? How did you get here so fast? Where did you get that cloak?" The cloaked Ivan grabs onto Safron and he said, "Where is he?" Safron said, "Where is who?" Cloaked Ivan said, "Don't play dumb with me. I know you know him. He's your boyfriend, isn't he?" Safron said, "I have no idea what is going on here." Ivan and Dirk run up to Safron and Dirk said, "What's this? Did Ivan get cloned or something?" The cloaked Ivan spots Ivan and he takes out a lacerator blaster and aims

it at Ivan. Cloaked Ivan said, "There he is." Ivan draws out his sword and he is about to fight the cloaked Ivan but then, Ivan stops and his pupils dilate. Ivan's body gets thinner and weaker. Cloaked Ivan charges a shot at Ivan. Safron grabs Ivan and Dirk and they all go on her skateboard and she zips away on her skateboard which causes cloaked Ivan to miss his shot.

Safron skates into the city and she looks behind and sees the cloaked Ivan running at them and attempting to blast them with his lacerator. Ivan said, "Who... is that... figure?... He looks... like me... I feel weak and... useless." Safron said, "I will get us to safety. I will take us to the monastery. I'm sure Augi will know what to do." Safron runs into a dead-end brick wall. Safron said, "There's not supposed to be a wall here?" Safron is cornered and cloaked Ivan walks up to them. Cloaked Ivan said, "Give me your Ivan. This can all end here quickly and smoothly." Safron said, "You better give us an explanation." Dirk said, "We are not giving up Ivan without a fight." Dirk raises his fists to the cloaked Ivan. Dirk fires silly string out of a silly string canister and he sticks the string to the dual-bladed sword and to the lacerator. Dirk tries to jerk the sword and lacerator out of cloaked Ivan's hands but it does nothing. Dirk said, "What gives?" Cloaked Ivan said, "You are all useless against me." Cloaked Ivan jumps at Ivan with his lacerator charging and aimed at Ivan. Captain Fusion dressed in a different suit with an orange upside down triangle on his chest with a yellow, F with a red belt, and red boots jumps out of nowhere and he smacks cloaked Ivan in the face. Cloaked Ivan falls back. Captain Fusion zips to Ivan, Safron, and Dirk and he grabs onto the three of them. Captain Fusion takes out a harpoon gun and he connects it to a metal bar of a ladder on one of the buildings and he zips to it. Cloaked Ivan gets up and he tries to jump at them and a gold Larry the Robot uses his plasma body to engulf cloaked Ivan and he maintains a tight enclosure of cloaked Ivan. Cloaked Ivan is in the thick gold liquid of Larry the Robot. Cloaked Ivan struggles to break out and he manages to cut Larry open and he falls out the back of Larry. Cloaked Ivan runs to the dead-end and he looks around and he sees everyone is gone and he is all alone.

Captain Fusion places Ivan, Safron, and Dirk into a protective transport and it takes off and it flies into the sky and it connects to a large seemingly normal cloud. Ivan, Safron, and Dirk are brought out of the transport and into the cloud which looks like some kind of army base. Soldiers in white guard different sections. Ivan said, "Where... are we?" Dirk said, "Yeah. What is this place?" A robed greeter comes to them and he said, "Welcome. You three shall report to the council at once. This situation looks very grim."

Ivan, Safron, and Dirk are brought to a council chamber where a large fat long white bearded master in gold and white robes sits in the center. There are four council seats with podiums above him. On the far left, sits the Captain Fusion that rescued

Ivan, Safron, and Dirk from the cloaked Ivan. Next to him is a round headed nearly bald guy with rectangular glasses and is dressed in a purple and red robe with a cape that goes behind his head. Next to him is a stern square headed guy with a sharp hairstyle and is dressed in a completely white suit with a tie. Next to him, is the gold Larry the Robot. Ivan said, "Who are you people? What is going on here?" The bearded master said, "All of that will be answered. We are the Protective Order of the Ultraverse. We are a top-secret agency. We are never to be seen or heard from unless our services are necessary and in your case, we most certainly are necessary." Ivan said, "Who was that guy trying to kill me and who are these people?" The bearded master said, "I am Master Bisto. I am the founder of the Protective Order. From left to right are, Captain Fusion, Lord Smort, Maxwell Devoria, and Larry the Robot. We are the leading members of this agency. We bring you in our custody because we have been carefully watching this Ivan that tried to kill you. (Black and white imagery depicts Master Bisto's story.) He comes from a universe in the second Ultraverse where he feels he can be better than anyone else. He then stumbled across the truth of the Ultraverses and he found out there is another version of him in the main Ultraverse. He has been doing all he can to find you by any means necessary. He has trained himself to be a highly powerful fighter. He is far more powerful than the average Ultraverse Monk. He has stolen some of the most powerful weapons in the Ultraverse and he has killed anyone that tried to stand in his way. He has completely devastated entire universes in his search for you. I have two of his victims right here." Master Bisto holds two gray and cloudy universe marbles. Master Bisto said, "There are hundreds of thousands of more marbles like these. They are completely void of life because Ivan went searching through them and took what he wanted and left them void of any life. The two most notable weapons he had stolen were a dual-bladed sword that was crafted by renegade monks, and a lacerator blaster that he stole from an experimental weapons lab. The lacerator is the most powerful blaster in the known Ultraverse. There is nothing stopping this, Ivan."

Ivan said, "I felt weak when I was around the other Ivan. It is like my life force and my yin-yangite instincts suddenly failed me." Master Bisto said, "We are aware that you are a yin-yangite and we have studied their kind. As it turns out, the reason you felt weak against the other Ivan is because yin-yangites feel that other adaptations or depictions of themselves from other realities or timelines are a part of them. Your subconscious mind recognizes the other Ivan as a part of yourself and you don't want to harm him because you feel you would be harming yourself in a way. We have also determined that his abilities can only be matched by someone that has the same mindset as him. That only person happens to be you. We will keep you here in our cloud. We will be safe from him up here and in the meantime, we will give you the proper training to take on this evil Ivan. I know you can defeat him. The Ultraverses are counting on you."

Ivan, Safron, and Dirk are given living spaces with beds. Safron said, "Well, at least you are safe at this place. We will still try to beat down that impostor." Dirk pounds his fists together and he said, "All these freaks we have come across have some kind of weakness. This guy is no different." Ivan said, "I was useless against him. I have never felt so useless towards someone before." Safron said, "These people seem to know what they are talking about and what they are dealing with. I am sure they will come up with a way for you to beat this impostor."

The cloaked Ivan uses a flying saucer and he uses a bizarre looking computer to detect the location of the cloud base. He crashes the flying saucer into the cloud base and it causes an explosion. Ivan, Safron, and Dirk are sitting on their beds and the lights go dark and a red-light flashes. A voice on the intercom said, "We are under lockdown. Stay in your rooms until told to leave." Dirk said, "What could this be?"

The cloaked Ivan walks through the main section of the cloud base. Cloaked Ivan said, "My faker is here. I know it as a fact." Captain Fusion, Lord Smort, Maxwell Devoria, and Larry the Robot confront the cloaked Ivan. The cloaked Ivan said, "Bring him to me now and all your lives will be spared." Captain Fusion said, "We will do what we must to serve and protect the people of the Ultraverse." Cloaked Ivan said, "Bring it on then." Cloaked Ivan draws out his dual-bladed sword and his lacerator. Lord Smort draws a magical sword with a spectrum of colors flowing through the blade. He duels with cloaked Ivan. Maxwell jumps and he smacks Ivan in the upper back. Ivan kicks down Lord Smort and he is about to jab his dual-bladed sword into Smort but Captain Fusion jumps on cloaked Ivan and he holds back his arms. Larry turns into a blob of gold and he snatches both of Ivan's weapons. Ivan's weapons are stuck inside Larry's thick gold plasma body. Ivan tries reaching inside Larry and his arms cannot go through Larry's body. Larry laughs and said, "That tickles." Ivan jumps and he smacks Larry in the head and gold plasma splatters around the fray. Larry's head gets broken sideways. Ivan jumps into Larry through Larry's broken neck and he swims through Larry. Cloaked Ivan finds his weapons and he activates his lacerator and it sends a beam to his dual-bladed sword. Larry laughs and he said, "It feels like I have a fish swimming around my body. I feel hot all of a sudden. Why am I so hot?" Cloaked Ivan's sword blades get hot and they slice through Larry's body. Larry explodes into goo and Ivan blasts the remaining clumps with his lacerator.

Maxwell takes out a taser gun and he blasts it at cloaked Ivan. Cloaked Ivan blocks the attack with his dual-bladed sword. Cloaked Ivan blasts Maxwell with his lacerator and Maxwell explodes into particles. Captain Fusion stands to the side as Lord Smort clashes swords with Ivan. Ivan swings his dual-bladed sword and Lord Smort attempts to clash his sword with Ivan's. Ivan jumps back and he fires his lacerator at Lord Smort. Lord Smort blocks the beam with the blade of his sword. Ivan

keeps sending the beam into Smort's multicolored blade. Smort blocks the beam and sweat pours down his head. Ivan jumps at Smort and is about to strike Smort and Smort uses his sword to block Ivan's blade but Smort's blade is so hot that when Ivan's blade hits it, it shatters like glass. Ivan kicks Smort down and he uses his lacerator on Smort. Cloaked Ivan looks around and he said, "I am pretty sure there is another one here that I missed."

Captain Fusion runs down the halls of the living quarters section. Captain Fusion opens up the door to Ivan, Safron, and Dirk's living quarters. Captain Fusion said, "I have to get all of you out of here. Your twin has the upper hand on us." Cloaked Ivan cuts a hole in the door to the machinery room. Guards take out their blasters and Ivan quickly slashes down the guards. Ivan uses his lacerator on the machinery and it is destroyed. Captain Fusion escorts Ivan, Safron, and Dirk down the halls and the halls rumble and the walls tilt over. Ivan said, "What's happening?" Captain Fusion said, "That other Ivan must have destroyed the environment stabilizer."

Captain Fusion brings them to a hangar where a black and orange ship with the upside down triangle F logo is displayed on the front and sides. The hangar keeps tilting over. Dirk takes out his silly string canisters and he fires them at the landing ramp of the ship and Dirk forms a sturdy string line. The heroes crawl up the line and they arrive in the ship and Captain Fusion gets to the controls. They leave the cloud base as it is collapsing and falling from the sky. Captain Fusion controls the ship through the sky and cloaked Ivan jumps on the ship and he pries open the main door to the ship using his sword. He jumps on the ship and he goes to Ivan. Ivan's pupils dilate and Ivan said, "I feel... weak... and useless... again." Captain Fusion looks at Safron and he said, "You take the controls." Captain Fusion jumps at the cloaked Ivan and he grabs onto both of Ivan's wrists. Captain Fusion spots the falling remains of the cloud base in the far off distance. Captain Fusion takes out his harpoon gun and he fires a shot at the remains. Captain Fusion clips the gun to the side of cloaked Ivan and cloaked Ivan is sent off into the remains of the cloud base. Captain Fusion returns to the main pilot seat.

Ivan said, "Where are you from?" Captain Fusion said (with flashback imagery), "I am from a universe that was plagued with crime and injustice. I was given a genetic augment serum from Dr. Waxler and I was given enhanced agility, extra strength, and a far more powerful mindset. I was then recruited by a superhero agency that was committed to ending the injustices of the world. They designed this suit for me and they trained me using elite military grade training techniques. I would collaborate with various superheroes from all over the world and we would bust down all kinds of villains. My universe was eventually invaded by the Asterix Empire and they hunted down all the good heroes. I was one of the only survivors. I took down some of their most powerful

men but I was no match for this Asterix Empire. I found a portal they were using to send things to my universe. It sent me to the Ultraverse. I then learned that there are several universes just like mine that are at risk. I didn't want any of these other universes to suffer the same cruel fate as my universe so I wanted to protect them. The Protective Agency learned of my story and they recruited me to fight for them. Now it looks like the Protective Agency is no more. I have nothing." Ivan said, "That's not true. You have us. I know a lot about Captain Fusion. There is one in the universe I came from. I fought along side him once. He often teams up with these twins called, Jason and Mason. What are Jason and Mason like in your universe?" Captain Fusion said, "I don't know of anyone named Jason and Mason." Ivan said, "Well, we need somewhere to go and I know the Captain Fusion from my universe is quite resourceful. I bet if the two of you team up together, we can come up with a way to destroy this Ivan." Captain Fusion said, "I guess I have no other choice." Safron said, "The universe Ivan grew up in is pretty good. I lived there for two years." Dirk said, "I'm from that universe too. There is nothing great about it. It is only great if you are a superhero or an associate of a hero or something like that."

Captain Fusion lands his ship in a large alleyway in San Francisco in the prime universe that Ivan is from. They walk down a large busy street and Ivan reads a map. Ivan points to a spot on the map. Ivan said, "Captain Fusion lives in a box on a tree in the main San Francisco Park. We could find him there and..." Cloaked Ivan said, "You didn't think retreating to your home universe would stop me, did you?" They turn around and cloaked Ivan jumps out from a crowd of people and he takes out his dual-bladed sword and his lacerator. He runs for the heroes. The heroes run down the street. The heroes run into cops on the street. Ivan said, "You have to help us. There is a murderer that looks like me and he is chasing after us." The cops look at the heroes and they burst out laughing. Cloaked Ivan said, "You are not going to laugh after what I can do to you." Cloaked Ivan blasts the cops with his lacerator and they turn into particles. Cloaked Ivan blasts down the police station and it turns into particles. The heroes run away from Cloaked Ivan and he keeps blasting down buildings on the San Francisco street. The heroes run into a construction yard where cloaked Ivan blasts down the supports to buildings being built and they collapse and they form into barricades that surround the construction yard. Cloaked Ivan walks up to the heroes and he said, "There is no way out of this now." Ivan's eyes go overly large and then they shrink small. Ivan falls on the ground in pain. Cloaked Ivan said, "It is not doing him any favors by letting me get close to him. Let me lacerate him and we can end all this." Safron stands in front of Ivan and she said, "You would have to go through us first." Dirk said, "Yeah. How do you keep finding us anyways?" Cloaked Ivan said, "Ivan is part of me. I always know where he is." Cloaked Ivan charges his lacerator. A different Captain Fusion that wears an all black suit with red CF letters on his chest jumps from one of the barricades and he jumps and smacks cloaked Ivan in the head and Ivan drops his dual-bladed sword and lacerator. He knees Ivan in the gut and he

grabs onto Ivan's head and flips Ivan backwards smashing him on the ground and leaving a large crack on the ground where Ivan is smashed.

The Captain Fusions grab onto Ivan and they find a cement mixer filled with cement and they stick cloaked Ivan into the cement mixer where cloaked Ivan appears to be stuck in the cement. (Prime Fusion is the Captain Fusion from this universe and Ultraverse Captain Fusion is the one that is introduced in this story.) Prime Fusion said, "That ought to take care of him. Ivan. I was wondering when we would meet again." Ultraverse Fusion said, "I guess this is the..." Ivan said, "This is the Captain Fusion I knew from my universe." The Fusions look at each other and Ultraverse Fusion said, "I guess you are me from this universe." Prime Fusion said, "I have served this universe for decades. I have dealt with the worst scummiest villains you can think of." While Prime Fusion speaks to Ultraverse Fusion, Ivan spots cloaked Ivan breaking out of the cement mixer. Cloaked Ivan is set free. Ivan spots the lacerator on the ground. A yin-yang forms around Ivan. Ultraverse Fusion said, "How did you know where to find us?" Prime Fusion said, "I felt someone that is another version of myself enter this universe. I knew something was up with them so I went to where they would be. I used my technology of course to help locate you." Captain Fusion shows one of his locator gadgets. In Ivan's mind, yin-yangs keep appearing around Ivan and they say, "We are all one in the same. You cannot harm yourself. You are worthless against your stronger self." Ivan raises a fist at the yin-yangs and he said, "No I am not. I am better than all of you." Yin-yangs are shot down at Ivan and they smash into Ivan and Ivan is knocked down. The yin-yangs say, "We are better than you. You are our slave. You serve the yin-yang. It is your one and only obsession. You must do exactly as the yin-yang wants." Ivan is glued to the ground and he struggles to break free. Ivan struggles and he lifts himself up. Ivan said, "No, I don't. I serve no one but myself and my friends." Ivan jumps and smashes down the flying yin-yangs. Ivan appears back on the ground in the construction yard. Ivan jumps up and he grabs the lacerator and he blasts the cloaked Ivan with it and the cloaked Ivan explodes into particles. Everyone looks at Ivan. Safron said, "My hero." Ultraverse Fusion said, "How did you do that? You are supposed to be weak against the other Ivan." Ivan said, "I am weak against nothing."

Ivan, Safron, Dirk, and Ultraverse Fusion are in Prime Fusion's lair. The Fusions look over their personal history books and they compare them. Ultraverse Fusion said, "You lived in exile for more than two decades? It took two twins to bring you out of exile? This is intriguing." Prime Fusion said, "You don't have Jason and Mason in your universe? No wonder why your universe got invaded. Jason and Mason bailed out this universe on several occasions." Safron said, "Now that the Protective Order is gone, what are you going to do now?" Ultraverse Fusion said, "I will continue to be a hero. I like this other Fusion. He seems to know how to build so much technology in a small space. I should become more like him." Safron said, "You could join the Ultraverse

Monks. We always need new members or people to work with.” Ultraverse Fusion said, “I will consider that.”
